03/08/2009	Big Cat	Somerset	Caller reported that a Big cat "jaguar / puma" seen in car headlights at 1.30am on 3 August 2009 on roadside between Mark and Burtle. Animal reported as being as high as the car	None	No further action needed.	Inconclusive
05/08/2009	Chipmunk	Derbyshire	The caller confirmed the animal was seen in the garden of the property on the one occasion and could not identify it as anything other than a	None	The caller was asked to let NE know if the animal was sighted again, no report received. From the description it is thought to be a grey squirrel.	Probably attributable to other causes

09/08/2009	Capybara	Rutland	Caller stated that an animal was seen crossing the road (lunch time) whilst out driving and was not recognised. Later considered to be a Capybara.	None	The animal has not been seen again and although the caller could not identify it other than by elimination. They were asked to confirm if further sightings were made. No further sightings reported. Conclusion - a	Can be discounted; positively attributed to other cause
25/08/2009	Siberian Chipmunk	West Yorkshire	5 animals (4 small, 1 larger) ran out of the hedgerow onto the road. 1 may have been run over. Caller identified the animals when returned home using the internet.	None	NE Wildlife Adviser rang local vets, Police Wildlife Officer & RSPCA - no other reports. Natural England Wildlife Adviser left name & number and asked caller to inform Natural England if any info re Chipmunks comes in. No other local sightings found on internet forums or local	Support report but not conclusive
30/08/2009	Chipmunk	Manchester	Caller reported seeing a chipmunk on Wed 26 Aug in Burnage Manchester. It appeared to be foraging rubbish. Caller did not see animal again.	None	No contact nos. for 'caller' but Natural England Wildlife Adviser checked on internet of Manchester sites week. No sighting in press or internet. Animal only seen once with no further reports. As such, could not be confirmed as a chipmunk.	Inconclusive
13/10/2009	American Raccoon	Surrey	Sighting. Bandaged face grey tail.	None	Caller had no doubt that it was a raccoon	Support report but not conclusive
14/10/2009	Wild boar	Suffolk	Third boar shot in the area. Small male approximately 70 Kilos. All three animals appear to be part of group of 15/16 animals released from a local farm. No licence held, case with Trading Standards.	None	It was believed that the local authority were unlikely to prosecute.	Confirms report of Exotic species
14/10/2009	Snapping Turtle	Kent	NE WA identified animal by photographs. It can be dangerous. It is 2ft long by 10-12 inches wide.	None	Local newspaper the Kent Arg, Kent biological records and Wildwood animal center were notified. Caller has been asked to come back to Natural England Wildlife Adviser if caller sees it again. It needs trapping and despatching.	Confirms report of Exotic species
12/11/2009	Unknown	Kent	Caller reported claw marks, teeth marks, spray colouration on furniture and fridge. Chewed carpets.	Yes	No further action necessary.	Can be discounted; positively attributed to other cause
22/01/2010	Chipmunk	West Yorkshire	Observer saw x1 adult chipmunk crossing road in front of car. Caller reported previous sighting in almost same place in August 2009.	None	Wildlife Adviser spoke to local landowners, garden centre, farmers and caravan park - no one has seen or heard of anything to suggest chipmunks living wild in area. Left contact details with all in case.	Probably attributable to other causes
