# Natural England Board Register of Interests (2009/10)

Non-Departmental Public Bodies (NDPBs) perform functions of a public nature and must therefore seek to conduct their affairs in compliance with accepted standards of conduct for public bodies.

For Natural England's Board to comply with the openness and accountability standards set by the Office of the Commissioner of Public Appointments (OCPA) it is necessary for members to declare their interests which may be relevant to the work of Natural England.

All Board members are asked to declare any personal interests and non-personal interests (for example, those relating to university departments for which a member may be responsible) which they feel might conflict with their responsibilities as a Board member of Natural England, or which may be perceived (by a reasonable member of the public) to influence their judgement. Board members are asked to declare both financial and non-financial interests.

Board members' interests will be reviewed bi-annually and any changes will be published on our website. Members are also asked to declare any specific conflicts of interest at the start of Board meetings and to withdraw from discussions for the duration of these items on the agenda.

Public bodies are required to proactively and progressively disseminate to the public, any information that they hold. Natural England's Board member Register of Interests is available on-line at [www.naturalengland.org.uk](http://www.naturalengland.org.uk) and at our regular Board meetings. It is maintained by Natural England's Board and Executive Services Team.
